

ROLAND PALERMO

SOFTWARE DEVELOPER

roland.palermo1@gmail.com | +639122207293 | Plesant Ville subd. Ilayang Iyam, Lucena City. Quezon 4301, Philippines

PROFESSIONAL SUMMARY

Software developer with experience in application support, software testing, client deployments, and the development and maintenance of desktop business applications. Proficient in C#, Microsoft SQL Server, debugging, and implementing client-specific enhancements for Point of Sale (POS) and Human Resource Management (HR/DTR) systems. Committed to delivering reliable software solutions while continuously expanding my technical skills.

WORK EXPERIENCE

Qtech Business Solutions Inc. - Philippines

2020 - Current

- Provided onsite and remote technical support for deployed systems by diagnosing and resolving hardware, software, and application-related issues.
- Assisted in the setup and configuration of POS hardware and software on Windows-based desktop environments.
- Deployed POS systems to client sites and conducted end-user training to ensure smooth adoption and proper system usage.
- Coordinated the implementation of a Water Utility Billing System for a Local Government Unit (LGU), serving as the primary contact for client communication, requirements gathering, and project testing.
- Performed functional testing of the POS system during development to identify issues before deployment.
- Gained in-depth knowledge of the POS system architecture, database structure, and codebase to develop enhancements and client-specific customizations after project turnover.
- Gained in-depth knowledge of the Human Resource Management System with Daily Time Record (DTR), including its database architecture and application workflow, to support ongoing development and maintenance.
- Developed and modified features for the POS and Human Resource Management System with DTR based on client requirements.
- Customized existing reports to meet client-specific reporting requirements.
- Investigated complex Level 3 application issues by tracing C# program execution, analyzing SQL Server data, reproducing reported issues, and implementing corrective fixes.

GVL Graphic Studios Enterprises (OJT)

Summer 2019

- Designed tarpaulin layouts for birthdays and other events based on client requirements.
- Operated large-format printing equipment for tarpaulin production.
- Assisted with photo booth setup and event preparation.
- Communicated with walk-in clients to gather design preferences and project requirements.

EDUCATION

Bachelor of Science in Information Technology

2016-2020

STI College Lucena

- Strong academic foundation in Programming and Database Management.
- Coursework focused on Programming, Database Systems, and Digital Arts.

KEY SKILLS

Technical Skills

Programming Languages

- C#, Visual Basic (VB.NET), Java (Basic)

Frameworks & Technologies

- .NET Framework, ASP.NET, REST APIs, HTML CSS, PHP

Database

- Microsoft SQL Server, SQL (Queries, Stored Procedures, Views)

Tools

- Visual Studio, SQL Server Management Studio (SSMS), Git, Team Foundation Server (TFS)

Data and Analytics

- Data Analysis, Data Visualization, Data Cleaning, Data Analytics Fundamentals

Core Competencies

- Software Development
- Application Support
- Software Testing
- Debugging
- Client Deployment
- End-User Training

CERTIFICATIONS
